

PMAANZ

Practice Managers and Administrators Association of New Zealand Inc.

Benefits for Members

Practice Management is a rewarding professional career choice for managers and administrators in the health care sector.

PMAANZ is the professional body which supports practice managers in New Zealand, encouraging professional development, and providing networking and peer support.

Professional Recognition

PMAANZ is a respected member of the health sector, and actively involved in many areas of governance and policy development. PMAANZ is currently represented on industry groups such as the General Practice Leaders Forum, General Practice New Zealand, School of Business and Government Business Advisory Group, Patients First, Aiming for Excellence and the Expert Advisory Group for the Royal New Zealand College of General Practice. The Association is regularly consulted on industry matters by the Ministry of Health and ACC.

Strategic Partnership

PMAANZ has formed a partnership with Westpac who offer benefits for members and member's employers, and aligns with other organisations that have an interest in health.

Conference

PMAANZ members enjoy a subsidised registration fee at its annual conference. Conference is full of opportunities to network, refresh ideas, be updated with changes in the industry, and undertake professional development.

Website: www.pmaanzt.org.nz

The website resources include: Members forum, Education, Employment, News and Information, Resources and Links, Local Branch information, Local and National Executive contact details.

Publications and Communications

Free to members

- PMAANZ magazines throughout the year
- Email updates on relevant information
- Biennial remuneration survey

Local Branches

Local branches offer subsidised attendance at branch seminars and educational meetings.

Monthly branch meetings provide a valuable local network, a forum to discuss current issues and share ideas, professional development activities, practice visits and access to expert speakers.

Education

Practice Management is recognised as a specialised area of health sector management and PMAANZ members are encouraged to undertake ongoing professional development. The association has developed an educational pathway for managers and administrators in conjunction with the New Zealand Institute of Management.

This includes:

- NZIM Certificate in Practice Management (Health)
- NZIM Diploma in Practice Management (Health)

Revised August 2011
